

Baby-Ready-Pets!

Helping families with pets prepare for a new baby.

EXPECTANT PET OWNERS. DO YOU KNOW:

-  What is the best way to introduce your pet to a baby or child for the first time?
-  How your pet behaves in loud, stressful or chaotic situations?
-  How your pet reacts to strangers and children running or playing?
-  What questionable behaviors or tendencies that your pet has?
-  Where that special place is for your pet to have some quiet time alone?

If these or any other questions concern you, this class can help you learn how to prepare your pet prior to your new addition's arrival.

DURING CLASS. PARTICIPANTS WILL:

-  Work with a Certified Pet Dog Trainer and a Humane Educator to explore your personal questions and concerns
-  Examine helpful suggestions and tips to prepare your pet before baby's arrival
-  Receive our Baby Sounds CD to help you begin acclimating your pet at home
-  Explore our valuable take-home resources, class book, and CD
-  Learn about interactive pet-friendly toys

PLEASE REMEMBER, NEVER, EVER LEAVE A BABY ALONE WITH ANY PET!

Hey Baby, Our Class is Barking AND Crying For YOU to Come!
